

Dear comrades,

Of late, the CHQ is observing that some of our comrades are criticizing the BSNLEU and praising the NFTE leadership for achieving the proposed wage revision scales. The goal is still far away as it has to get approval from DOT which may need sustained and serious struggle. The unfounded criticism may affect the unity which will be detrimental to the great cause. Therefore please desist from such activities forthwith in larger interest. Trust our comrades will sincerely abide by the advise of CHQ .
